## Summary

A variety of engagement methods were undertaken in order to seek feedback from the community about their play needs. Feedback from **757** local residents has been considered, in addition to customer requests over a 2-year period. The **14** separate engagement sessions, activities and information sources used to provide an evidence base for the play strategy include:

- Staff workshop with 5 Council officers
- Age Friendly Frankston Ambassadors Workshop with 8 people
- Youth workshop with 10 young people
- Kingsley Primary School consultation with 13 young people
- Derinya Primary School consultation with 9 young people
- Frankston Disability Access and Inclusion Committee with 7 people
- Local Park Action Plan Community Survey for Carrum Downs, Frankston North and Langwarrin – May and June 2020 – with 72 contributors
- Facebook feedback #1 with 19 contributors
- Facebook feedback #2 with 261 comments
- Instagram feedback from 8 people
- Community survey with 250 responses
- Community mapping on social pinpoint with 79 responses
- Emails from residents with 16 responses
- Customer requests from 2018 to 2020 – number of contributors unknown.

Feedback incorporated information about specific play spaces, e.g. desired types of improvements, in addition to more general information about design, supporting infrastructure, information, accessibility, etc. Much of the consultation report provides details on specific play spaces, i.e. what the community values, as well as suggested improvements. Key themes included:

### Play features

- The desire for water play
- The desire for more adventurous play for older children / teenagers, e.g. ninja warrior circuits, rock climbing walls, flying foxes, basketball half courts, inground trampolines, high swirly slides, jumping pillows, etc
- The desire for more toddler-friendly play spaces
- The desire to keep traditional play equipment, e.g. slides, swings and monkey bars
- Desire for slides to be constructed of plastic rather than metal and that rubber surfaces are used for under-surfacing rather than tanbark
- The desire for bike / scooter related play features such as pump parks or BMX tracks
- Continued demand for skate facilities
- The desire for more nature play
- The desire to incorporate spaces for people to run around in

### **Supporting infrastructure**

- The desire for more shade
- The desire for more fenced play spaces
- The desire for more seating
- The desire to provide shared trails to play spaces and accessible trails within play spaces
- The desire for more toilets in more play spaces

### **Play space design and provision**

- The desire to retain and continue to upgrade pocket parks / local parks rather than to develop additional regional parks, but there is also an expectation that these spaces will feature items often found in a regional play space
- The desire for less crowded play spaces (Ballam Park was identified as a space that can get too crowded)
- Disappointment with some recent play space upgrades - namely Frankston Foreshore

### **Environment**

- The desire for improved landscaping in parks and play spaces

### **Access**

- Improved access and inclusion for people of all ages and abilities

### **Social inclusion and events**

- The desire to create more social spaces in play spaces, e.g. BBQs and shelters
- The need to ensure that play spaces and parks can also be utilised for community events

### **Intergenerational play**

- The desire to incorporate outdoor fitness equipment into the play area

### **Technology**

- The desire to explore technology in parks, e.g. Wifi connectivity, outdoor bicycles that can charge mobile telephones and sound booths

### **Dogs**

- Growing issue around management of dogs in play spaces

### **Play space upgrades and developments**

- The desire for play upgrades in Carrum Downs and Langwarrin
- Consideration of a play space at Seaford Library
- The three most important things to improve in a park / play space are: new play equipment; more shade, paths and seats; and more things to do (according to the community survey)
- Play spaces people least like to play at (according to the community survey) are: Frankston Foreshore; Ballam Park; Cavill Reserve; Keast Park; and Pratt St Playground

## Usage

According to the community survey;

- Play spaces are generally visited a few times per week by local residents, or once every few weeks
- Favourite play spaces include: Ballam Park; the beach (not specified exactly where); Frankston beach; Frankston Foreshore; Overport Park; and George Pentland Botanic Gardens
- The prime reason people choose to visit a particular play space is because there are lot of fun things to do there
- The most desired places to play include playgrounds, the beach, Frankston Foreshore, play spaces close to home, parks and ovals

## Maintenance

- The majority of customer requests relate to graffiti on playground equipment.

***A summary of each of the tools used follows in the next section of the report.***

## Age Friendly Frankston Ambassadors Workshop

Eight members of the Age Friendly Frankston Ambassadors took part in a workshop on 30 June. This workshop was also attended by four Council staff and one member of the project team. Participants were asked to identify how we could make play spaces in Frankston City more age friendly. Feedback primarily centered around access and amenities such as shade, seating, toilets, paths and parking. Key suggestions include:

<b>Topic</b>	<b>Details</b>
<i>Parking</i>	<ul style="list-style-type: none"> <li>• Want parking that is located close to play spaces</li> <li>• Parking costs near the beach to access the play space are prohibitive for people who don't live in the municipality (\$3.50 per hour)</li> <li>• Many older adults don't feel comfortable paying for parking with a debit or credit card, so may not visit play spaces near paid parking locations</li> </ul>
<i>Play equipment and opportunities</i>	<ul style="list-style-type: none"> <li>• Like a diversity of play opportunities in a play space</li> <li>• Consider musical opportunities in play spaces, e.g. encourage people to bring guitars and sing, or provide a piano in a park so people can come and play it</li> <li>• Places with free entry and no financial barriers to access</li> </ul>
<i>Seating</i>	<ul style="list-style-type: none"> <li>• Need plenty of seats</li> <li>• Need to ensure that seats are positioned so that people can supervise children when they are playing and where people don't get hit by people playing with balls</li> <li>• Would like social type seating to enable people to engage in conversation with one another</li> </ul>
<i>Shade</i>	<ul style="list-style-type: none"> <li>• Need to ensure that there is shade over seats</li> <li>• Consider installing pergolas as a form of protection from the sun</li> </ul>
<i>Passive recreation</i>	<ul style="list-style-type: none"> <li>• Like the lake in the Botanic Gardens – allows for reflection</li> <li>• Like spaces to read a book, eat lunch, listen to a podcast</li> <li>• Consider installing outdoor chess tables (could be popular for older adults from CALD backgrounds)</li> <li>• Consider installing music in parks</li> </ul>
<i>Toilets</i>	<ul style="list-style-type: none"> <li>• Prefer to visit play spaces that have toilets</li> <li>• Need to have toilets open during park opening times</li> </ul>
<i>Paths / walking tracks</i>	<ul style="list-style-type: none"> <li>• Like opportunities to go for a walk around play spaces</li> <li>• Walking tracks need to be relatively flat, well maintained and wide enough for two people to walk side by side</li> <li>• Consider installing an accessible walkway that allows people with disabilities to access the beach without walking on the sand</li> </ul>
<i>Usage</i>	<ul style="list-style-type: none"> <li>• Prefer places that are not too crowded</li> </ul>
<i>Location</i>	<ul style="list-style-type: none"> <li>• Consider locating play spaces next to community centres (as this is a space that people from CALD communities generally feel safe and welcome)</li> </ul>

<i>Design</i>	<ul style="list-style-type: none"> <li>• Need to consider COVID-19 restrictions when designing play spaces in the future</li> </ul>
<i>Accessibility</i>	<ul style="list-style-type: none"> <li>• Play spaces should be accessible for people of all abilities</li> <li>• Consider installing some gentle outdoor fitness equipment and accessible swings in play spaces and some handrails next to the equipment so more frail older adults or those with disabilities can safely exercise and enjoy themselves</li> </ul>
<i>Plants</i>	<ul style="list-style-type: none"> <li>• Develop an enchanted forest and plant fragrant flower and textured plants to enable sensory experiences</li> </ul>
<i>Signage</i>	<ul style="list-style-type: none"> <li>• Want path grading signage to grade parks from easy through to hard where there are a lot of stairs to access a park or play space, e.g. Shearwater Creek</li> </ul>
<i>Bins</i>	<ul style="list-style-type: none"> <li>• Provide bins in play spaces such as Beauty Park</li> </ul>
<i>Night-time</i>	<ul style="list-style-type: none"> <li>• Some older adults want to go out at night and meet other older adults for activities such as dancing, but there is nothing available locally (Carrum Downs has an indoor space where older adults go in the evening). This would help to reduce some of the isolation and loneliness.</li> </ul>
<i>Multicultural communities</i>	<ul style="list-style-type: none"> <li>• How do we access and engage people from CALD communities and provide opportunities for them to share their culture with the broader community, e.g. run cultural activities, involve food tasting</li> </ul>
<i>Information</i>	<ul style="list-style-type: none"> <li>• Develop a brochure and website information about features in play spaces and open spaces, e.g. accessibility, toilets, etc</li> </ul>
<i>Where we are doing aged friendly play spaces well</i>	<ul style="list-style-type: none"> <li>• Botanic Gardens</li> <li>• Foreshore and Boardwalk</li> <li>• McLelland Gallery</li> </ul>
<i>Where we could make our play spaces more age friendly</i>	<ul style="list-style-type: none"> <li>• Consider installing outdoor fitness equipment in Overport Park and Ballam Park</li> <li>• Unlock toilets in Ballam Park</li> <li>• Install a ramp between Waves Restaurant and the Boardwalk (the steps are too difficult for people with disabilities).</li> </ul>

## Youth Council Workshop

10 young people, three staff and one project team member took part in a one-hour online workshop on 14 July 2020.

Participants were asked to identify how we could improve play spaces in Frankston City for young people. Young people currently play in a wide variety of locations including play spaces, ovals and shopping centres. They suggested an array of improvements that would make play spaces more accessible and appealing to young people including spaces designed by young people and where young people are welcome, incorporating features such as natural landscapes, art, music, open space, seats, bike paths, pump tracks, skate facilities, etc. Key suggestions include:

Topic	Details
<i>Places young people like to play / hang out and why</i>	<p><b>Shopping Centres, e.g. Central Frankston, Bayside Shopping Centre, op shops</b></p> <ul style="list-style-type: none"> <li>• Can walk around</li> <li>• Can window shop</li> <li>• Can be indoors away from the cold</li> <li>• Can chat and be a bit noisy with friends (unlike in the library)</li> <li>• It doesn't cost any money to hang out there (i.e. don't have to buy food / drinks)</li> <li>• There is free Wi-Fi</li> <li>• It feels a little bit dangerous / rule breaking</li> </ul> <p><b>Bruce Park</b></p> <ul style="list-style-type: none"> <li>• Easy to get to, close to friends' homes, close to shops</li> <li>• Space to run around on the oval</li> <li>• Sit on equipment rather than play on it</li> <li>• Would like more seats and table.</li> </ul> <p><b>Ballam Park</b></p> <ul style="list-style-type: none"> <li>• Has a basketball half court</li> <li>• Flat space for scooters</li> <li>• Play equipment is good</li> <li>• There is a BBQ so you can take your own food and cook it</li> </ul> <p><b>Keast Park</b></p> <ul style="list-style-type: none"> <li>• Has a sand play area slightly away from the beach, however there are views of the beach</li> </ul> <p><b>Kackeraboite Creek Beach</b></p> <ul style="list-style-type: none"> <li>• Free</li> <li>• Outdoors</li> <li>• Can walk on the boardwalk with friends</li> </ul> <p><b>Sweetwater Creek Play Space</b></p> <ul style="list-style-type: none"> <li>• Unstructured environment</li> <li>• No ovals</li> <li>• Can hike / walk</li> <li>• Can walk dogs</li> </ul>

Topic	Details
What would make spaces better to hang out in?	<p><b>Overport Park</b></p> <ul style="list-style-type: none"> <li>• Can walk dogs</li> </ul> <p><b>Jubilee Park</b></p> <ul style="list-style-type: none"> <li>• Can play netball</li> <li>• Like nature area</li> <li>• Can walk dogs</li> </ul> <p><b>Friend's homes</b></p> <p><b>Beach</b></p> <p><b>Coffee shops / restaurants / pubs (for those over 18 years of age)</b></p>

## Kingsley Park Primary School Workshop – 29 July 2020

A group of 13 grade five and six students from Kingsley Primary School attended an online workshop to discuss what aspects of play spaces they like and don't like on 29 July 2020. They were accompanied by two teachers. One Council staff member and one project team member facilitated the session. Prior to the session, students had spent time discussing and drawing their ideal play spaces.

Topic	Details
<i>Play spaces that young people like to visit</i>	<ul style="list-style-type: none"> <li>• Waterfront at the beach</li> <li>• Boardwalk</li> <li>• Ballam Park</li> <li>• Jubilee Park – trampolines in particular</li> <li>• Beauty Park</li> <li>• Botanical Gardens – swinging log in particular</li> <li>• McClelland Park – bike jump area in particular</li> </ul>
<i>Features of an ideal play space from drawings presented</i>	<ul style="list-style-type: none"> <li>• Bridges</li> <li>• All abilities access</li> <li>• Slide with rails for people with disabilities</li> <li>• Bike jumps</li> <li>• Area where children can create their own jumps</li> <li>• Swings with timers (so children don't have to wait too long for a turn)</li> <li>• Hammocks</li> <li>• Obstacle course</li> <li>• Inground trampolines</li> <li>• Parcour infrastructure</li> <li>• Spongey rubber surface with designs on it</li> <li>• Swirly slides</li> <li>• Outdoor trampolines</li> </ul>
<i>Features of an ideal play space from discussion</i>	<ul style="list-style-type: none"> <li>• Rock climbing</li> <li>• Bridges</li> <li>• Flying fox</li> <li>• Swings</li> <li>• Slides</li> <li>• Bars that you can do flips on</li> <li>• Sand pits</li> <li>• BMX jumps / pump park</li> <li>• Skate park</li> <li>• Half basketball court</li> <li>• Climbing equipment</li> <li>• Nature based play opportunities</li> <li>• Hiding spots</li> <li>• Mazes</li> <li>• Open space</li> </ul>

<i>Play spaces young people don't like</i>	<ul style="list-style-type: none"> <li>• Play space near Peninsula Private Hospital – too much rubbish</li> <li>• Franciscan Avenue – not much equipment to play on, equipment is designed for younger children, it's boring and there is graffiti</li> <li>• Play space at Robinson's Reserve – not well looked after and is designed for younger children</li> </ul>
<i>Usual form of transportation to play spaces</i>	<ul style="list-style-type: none"> <li>• 4 walk</li> <li>• 4 ride a bike</li> <li>• 5 get driven in a car</li> </ul>
<i>Who accompanies young people to play spaces</i>	<ul style="list-style-type: none"> <li>• Friends – all 13</li> <li>• Family – sometimes</li> <li>• Go by self - 3</li> </ul>

## Derinya Primary School Workshop

A group of nine student leaders from Derinya Primary School attended an online workshop to discuss what aspects of play spaces they like and don't like on 13 August 2020. They were accompanied by one teacher. One Council staff member and one project team member facilitated the session.

Topic	Details
<i>Play spaces that young people like to visit and why</i>	<ul style="list-style-type: none"> <li>• Beach – like the water, sand, ability to build sandcastles, can be active</li> <li>• Overport Park – can ride bikes there, has open space suitable to play football with friends, has cricket nets, lots of equipment, fun climbing apparatus, lots of different things to do</li> <li>• Jubilee Park – like the equipment, can also play sport / be active</li> <li>• Beauty Park – has good play equipment and can run around</li> <li>• Backyard – can play football or basketball, can play with parents</li> <li>• Sports ovals – can play football or run around</li> </ul>
<i>Play spaces young people don't like</i>	<ul style="list-style-type: none"> <li>• Most children only tend to go to a few places that they like</li> <li>• Botanical Gardens as it gets too busy and it's hard to get a turn on equipment</li> <li>• Creeks – worried about falling in</li> <li>• Play spaces with equipment just for very young children</li> </ul>
<i>Suggested improvements / features</i>	<ul style="list-style-type: none"> <li>• Larger play spaces with different levels, slides, monkey bars, climbing</li> <li>• Facilities that include a variety of activities for young people including skate parks and sports facilities</li> <li>• Basketball half courts</li> <li>• Open space areas to run around in and play football</li> <li>• Rock climbing walls</li> <li>• High monkey bars</li> <li>• More regional play spaces with lots of equipment and spaces to play</li> <li>• Equipment for older children</li> <li>• Benches to sit on and talk to friends</li> <li>• Flying foxes</li> <li>• Playground equipment at the end of the pier</li> <li>• Water park</li> <li>• Jumping pillows</li> <li>• More equipment in Ballam Park to spread usage and allow more people to access equipment without waiting</li> <li>• Improvements to small play spaces that are currently boring and run down</li> <li>• Birds nest swings</li> <li>• Mini trampolines</li> </ul>

<b>Topic</b>	<b>Details</b>
	<ul style="list-style-type: none"> <li>• Provide open space for ball games or running in addition to play equipment in parks</li> </ul>
<i>Places young people would like to be able to play</i>	<ul style="list-style-type: none"> <li>• Most young people have 1-2 play spaces within walking distance of their homes, so they were satisfied that there were no other places they wanted to play</li> <li>• Basketball stadium – unable to use at present because it's closed due to COVID-19 restrictions</li> <li>• Local play spaces - if the play value is increased</li> </ul>
<i>Usual form of transportation to play spaces</i>	<ul style="list-style-type: none"> <li>• 7 walk to play spaces</li> <li>• 2 ride their bike to play spaces</li> </ul>
<i>Who accompanies young people to play spaces</i>	<ul style="list-style-type: none"> <li>• 5 generally go to play spaces with friends</li> <li>• 3 generally go to play spaces with family members</li> <li>• 1 generally goes to play spaces by herself (the play space is next door)</li> </ul>
<i>Other ideas / comments</i>	<ul style="list-style-type: none"> <li>• Children like a mix of local spaces that they can walk to (providing these spaces are fun) as well as regional play facilities.</li> </ul>

## Frankston Disability Access and Inclusion Committee (DAIC)

Seven members of the Frankston Disability Access and Inclusion Committee attended an online workshop to specifically discuss access and inclusion issues and opportunities on 4 August 2020. Two Council staff members attended this session along with one member of the project team. Participants spoke about a variety of ways to improve inclusiveness and accessibility, particularly in relation to infrastructure, e.g. paths; shade; car parking; viewing platforms; accessible BBQs; raised garden beds; sensory gardens; street art spaces; recycle bins; wayfinding signage in plain English and Braille, text to speech from signs.

Topic	Details
<i>Where do people currently play and what do they like about these spaces?</i>	<p><b>Foreshore / beach</b></p> <ul style="list-style-type: none"> <li>• It's near the beach – the waves are calming</li> <li>• It has a boardwalk which is accessible and enables people of all abilities to get close to the water</li> <li>• There is a ramp where watercraft can be launched from</li> <li>• There is a Liberty Swing there</li> <li>• There is adventurous equipment</li> <li>• There are BBQs</li> <li>• There are some good walks that aren't too crowded (therefore more appealing to people with autism)</li> </ul> <p><b>Railway Parade</b></p> <ul style="list-style-type: none"> <li>• It's near the shops</li> <li>• Has good climbing equipment</li> </ul> <p><b>Mitchell Street</b></p> <ul style="list-style-type: none"> <li>• Swings are good</li> </ul> <p><b>Seaford Child Minding Centre – opposite Seaford Railway Station</b></p> <ul style="list-style-type: none"> <li>• Good for dog walking</li> </ul> <p><b>Seaford Football Ground</b></p> <ul style="list-style-type: none"> <li>• Nice new play space</li> </ul> <p><b>Sweetwater Creek</b></p> <ul style="list-style-type: none"> <li>• Open space areas suitable for dog training</li> </ul> <p><b>Beauty Park</b></p> <ul style="list-style-type: none"> <li>• Lots of open space</li> <li>• Has a lake and ducks</li> <li>• Attractive setting</li> <li>• Has accessible parking nearby</li> <li>• Has dog water taps / bowls</li> </ul> <p><b>Ballam Park</b></p> <p><b>Nature Conservation Reserve</b></p> <p><b>Overport Park</b></p> <p><b>Darnley Reserve</b></p> <ul style="list-style-type: none"> <li>• Can walk through the pine forest</li> </ul> <p><b>Danube Reserve, Skye</b></p> <ul style="list-style-type: none"> <li>• Open space for football</li> </ul>

	<ul style="list-style-type: none"> <li>• BBQ</li> <li>• Attractive setting</li> <li>• Has a bird watching platform and a windmill</li> </ul> <p><b>George Pentland Botanical Gardens</b></p> <p><b>Moorooduc Quarry</b></p> <p><b>Mt Eliza Foreshore</b></p> <p><b>Halley Park in Bentleigh</b></p> <ul style="list-style-type: none"> <li>• Large open space</li> <li>• Bike track</li> <li>• Half basketball court</li> </ul> <p><b>Gilbert Park in Knoxfield</b></p> <ul style="list-style-type: none"> <li>• Rubber surface</li> </ul> <p><b>Brimbank Park</b></p> <ul style="list-style-type: none"> <li>• Rubber paths with wide turning spaces</li> <li>• Auslan signs</li> <li>• QR code signs</li> <li>• Close to nature reserve</li> <li>• Connected to sports facilities, e.g. Little Athletics</li> <li>• BBQ</li> <li>• Accessible Changing Places toilets</li> <li>• Accessible swings (located on end of a bank of swings)</li> <li>• Birds nest swings</li> <li>• Accessible restaurant</li> <li>• Seating</li> <li>• Pod seats for people with autism</li> <li>• Rubber tyre hammocks</li> <li>• Outdoor fitness equipment</li> <li>• Easy to access</li> </ul>
<i>Play spaces that people don't like and why</i>	<ul style="list-style-type: none"> <li>• The one near the Visitor Information Centre as it doesn't feel safe due to the fact that the people who hang around there may be partaking in illegal activities.</li> </ul>
<i>How to improve play spaces</i>	<ul style="list-style-type: none"> <li>• Mitchell Street Play Space – add an extra swing (there is only one)</li> <li>• McCrae Reserve &amp; Seaford North Reserve – need to provide dog excrement bags</li> <li>• Beauty Park – need to provide dog excrement bags</li> <li>• Darnley Reserve – needs more equipment; not enough car parking in summer for people parking there to walk their dogs</li> <li>• Danube Reserve – needs improved access for people of all abilities, e.g. bird viewing platform should be made accessible for people in wheelchairs and swings can only be accessed and used by able bodied people</li> <li>• Seaford Library – needs a play space</li> <li>• Boardwalk – continue the Boardwalk from where it ends at the Surf Life Saving Club</li> </ul>

- Beach access – need to store beach wheelchairs closer to the beach and beach matting should be available, similar to Mount Martha Life Saving Club
- Paths – need to be wide enough for people and their guide dogs or wheelchairs and should include turn around areas
- Intergenerational – parks should be for all ages
- Design – play spaces should feature zones for different ages; there should be a mix of small parks and larger parks; provide safe spaces for children who are ‘runners’; provide auditory features on bridges; use plants, colour and lights for natural wayfinding;
- Outdoor fitness equipment – should be provided, particularly for older people
- Infrastructure – need to provide more shade as some people with disabilities take medication that makes them sensitive to the sun; accessible BBQs; raised garden beds; sensory gardens; street art spaces; recycle bins; wayfinding signage in plain English and Braille, text to speech from signs.

## City of Frankston staff workshop

A meeting was held with five staff from City of Frankston on 5 May 2020. The purpose of this meeting was to identify issues, opportunities and key directions for the strategy.

**a) What do you want play to look like in Frankston in the future? And b) What do we mean by 'intergenerational' and 'inclusive'?**

Person 1:

- Good to stock take what / where and why?
- Have been completing 3-4 projects per year
- Distribution – need to provide equitable access
- Need to focus on demographic changes
- Play value has been much more of a focus and has improved in recent years
- Much more emphasis on design with much better outcomes
- Council now has a routine of design and tender documentation (1st year), delivery (2nd)

Person 2:

- Of most importance is 'liveability' in local areas and how open space intersects with health, wellbeing, early years outcomes etc. Otherwise health and wellbeing are affected (poor outcomes for communities)
- Social connection in some areas – play spaces provide this opportunity
- Socio-economic status needs to be addressed. In disadvantaged areas there is evidence that quality of spaces is poorer

Person 3:

- Reiterated that 'disadvantage' was of high importance for consideration. Play is so important for children's development and for families. Not just in traditional play spaces, but all public space – play is an everyday part of our lives
- Mentioned lack of open space / play opportunities in the city centre and the fact that we need to think more broadly about where play might occur elsewhere (other than traditional park play spaces) and what might these look like in the urban centre? Playful moments. Play for all ages – how does this look.

Person 4:

- Play and safety of high importance. Complaints received by community are generally about perceptions of safety by parents. [Project team will look to address some of these concerns in design guidelines for project]
- Quality and accessibility to materials

Person 5:

- Play spaces are hubs for 'social connectedness'

- With thinking around 'all abilities' there is a natural access for grandparents to participate
- Facilities / infrastructure to support 'inclusion' do need consideration. If we want to get all ages there – play spaces need toilets, paths, BBQs etc.
- The focus in past has been on younger children, strategies are needed for teenage play and other types of play. Sometimes seen as being in the too hard basket
- Active Ageing Group has funding for seniors play space (Funded through Monash University). Might include nice gardens, chess set, seats etc. Brings people out of nursing homes
- Discussion around intergenerational. [Noted that this is often talked about, but not always well delivered. Need to understand that motivations are different from toddlers – seniors. Can't cater for every group in every location].
- Note that the demographic information will be really useful here in understanding 'local' needs
- Regional play spaces can cater for more needs, but not everywhere. In 80-90's councils installed modular equipment – play value was limited. [Noted the need to examine and consider best investment]

### **c) What do you think a 'successful' play space should look like?**

Person 4:

- If you build it they will come!
- Safe
- Draws people in and encourages interaction. Great to see kids climbing all over
- Maintainable (i.e. easy access to materials and replacement parts)
- Timber has been problematic because doesn't last as long (however steel stirrups have helped)
- Accessibility to nature play requires support to maintain
- FCC is now back ahead of the game; it had lost strategic focus with the previous play strategy
- \$500-\$1000 spent weekly on maintaining bubbler taps for drinking water

Person 1:

- Needs to be 'walkable' from home
- Of a good quality / standard (at present many community members are travelling long distances to access what they want). Want walkability so they don't have to provide car parks necessarily
- Try to meet the needs of the community, recognising that each community has its own specific needs
- Some people expect that regional level facilities will be provided at a local level facility
- Non-prescribed play to compliment more formalised play
- Needs to be an even spread of play spaces across the municipality. Seaford was overlooked for play space upgrades for a number of years; however it has had an increased focus in recent years and could potentially be oversupplied now.
- Need to identify where to upgrade and when
- FCC has a renewal program budget for play spaces to replace or upgrade play spaces. Also has an Open Spaces renewal budget which is used to upgrade parks or open spaces in reserves. Need to also look at ancillary items, e.g. use the Open Space renewal budget to upgrade footpaths, as this infrastructure helps to improve the space.

- Provide opportunities for non-prescribed play – picnics, birthday parties, etc. Bruce Park (upgraded 17/18) good example of well used sports reserve – next to community hall – play space was designed with use of hall in mind (to also help viability of hall). Consider co-location of play spaces with other community facilities

Person 3:

- Well planned / well designed to meet community needs
- Good collaboration and consulting with community along the way. More consultative designs
- Communicate what Council is doing to improve play spaces
- A well-integrated approach. Integrated with community facilities – most successful. Look at opportunities to align projects. Targeted approach with community planning initiatives
- Amenity / Align other programs for improvement works better
- Community as a focus – part of the process. Need to better communicate – people may not know what already exists – look at website [Noted that facilities (specifics) at play spaces need to be promoted]
- Council as well, as an organisation improving 'processes' with mean more successful outcomes. Operational processes to be examined – so we are satisfied with outcomes
- Internal processes also. This group PAG to potentially continue ongoing after Play Strategy is delivered

Person 2:

- Having people in it
- See how people are using it
- Carrum Downs – significant ageing population in community – developing a response to this in terms of play provision is important
- Frankston North – disadvantage through a higher proportion of chronic diseases – need to get them moving and active
- Functionality in both summer and winter – shade / covered seating areas – enable social connection to happen
- Adventure of ALL the senses – physical movement, modular play spaces do not often allow for this
- Synergies / proximity with community services for social connection (i.e. play spaces connected to Library where families can come to storytime then continue connection in play space outside), natural surrounds and homes
- Making the most of natural assets
- Connecting to walking paths
- Access and mobility - functioning
- Inclusion and accessibility – tan bark is not an accessible surface – prefer spongy rubber surface, drinking water, dog water bowls
- Disability Advisory Group – connect with (meets every 6-8 weeks). Will meet late June / July. May be opportunity to consult separately from regular meetings – need to discuss

Person 5:

- Unintended consequences (Healthy Parks / Healthy People)
- Often requests from community for 'coffee carts', Pram Walking and other groups
- Recently responded to a request from community to establish a coffee cart near a play space in Karingal. Ended up with a 'Doughnut Truck' – not quite the outcome intended.
- Actioning of processes (to implement ideas) needs improving
- Maintenance budget required for shade sails
- Temporary fencing useful in establishing buffer planting (helping it grow in heavily trafficked spaces)

Person 1:

- Hot topic #1: Fencing (examples of integrating better recently, removing one side etc.). Dealt with on a case by case situation. Prefer to minimize fencing. Try to integrate play space with surrounding landscape. Fencing often related to adjacencies with dog off lead areas. Bruce Park – modified existing fence (removed panel on one side so that it is around  $\frac{3}{4}$  of the space). Need clear direction / range of options on this to assist with communication with community
- Hot topic #2: Shade sails (some community members have said they won't use play spaces without them). Again, case by case. Seaford North Reserve an example. Shade sails have their own budget. Need more regular maintenance to re-tension o Examples of success to look at for precedent study:
- Bruce Park (completed 17/18) and Ballam Park (recently upgraded) are successful projects to look at. Ballam will include nature-based play

Facilitator:

- It is important to communicate policy directions to the community
- We are aware of budgetary limitations.

## Local Park Action Plan Community Survey for Carrum Downs, Frankston North and Langwarrin

Relevant play space feedback from the City of Frankston's Local Park Action Plan is included below. This information has been extracted from the City's Have Your Say page. Responses were received from 72 local residents in May and June 2020 and include:

## OurSay online feedback survey and map

Frankston City Council prepared a website page incorporating a map where people could place a pin to identify:

- Places they like to play
- Places they don't like to play
- Places they would like to play

For each comment made, people were invited to provide more detail or to complete a survey.

### Survey

A total of 250 people completed the survey.

Respondents were asked to identify all of the places that they like to play. The most popular destination (from a predetermined list) was at a public play space, at a park / in the bush or at a beach. All answers follow:

Location	Number of responses	Percentage of responses
Public play space	198	79%
In park / in the bush	191	76%
At the beach	175	70%
At home	139	56%
At school or kinder	109	44%
At indoor play centres	72	29%
Other - friend's house (2), pools and slides, streets, Reservoir, skate park	6	2%

Respondents were asked to identify their favourite place to play and why they like this space.

Play spaces mentioned most frequently include:

- Ballam Park
- the beach (not specified exactly where)
- Frankston beach
- Frankston Foreshore
- Overport Park
- George Pentland Botanic Gardens.

For each space selected, respondents were asked to identify what they like most about them from a predetermined list. The three things respondents most like about their favourite play spaces in order of preference are:

- opportunities to meet and play with family / friends
- there are fun things to do there
- there is space to run around and play games.

Response	Number	Percentage
1. There are a lot of fun things to do here	153	61%
2. It's challenging and adventurous	107	43%
3. The trees, plants, rocks, logs, sand or water are nice to play with	101	40%
4. It's a great place to meet and play with friends or my family	156	62%
5. There are nice quiet places to play	68	27%
6. It's close to my home, school or kinder	145	58%
7. There are things like toilets, shade, BBQs, picnic facilities and shelters there	94	38%
8. There is space to run around and play games	152	61%
9. I feel safe there	112	45%

Survey respondents were also asked how often they go to their favourite play space. They stated that they visit their favourite play spaces a few times per week (31%) or once every few weeks (23%).

- Every day – 20 (8%)
- A few times per week – 78 (31%)
- Once per week – 41 (16%)
- Once every few weeks – 58 (23%)
- Several times per year – 41 (16%)
- Once per year – 7 (3%).

Respondents were asked how their favourite play space could be improved.

Play spaces mentioned most frequently include:

- Ballam Park
- the beach (not specified exactly where)
- Frankston beach
- Frankston Foreshore
- Overport Park
- George Pentland Botanic Gardens.

For each space selected, respondents were asked to identify key improvements from a predetermined list. The three things respondents most wanted improved in order of preference are:

- New play equipment
- More shade, paths and seats
- More things to do

Response	Number	Percentage
1. More things to do	101	40%
2. New play equipment	115	46%
3. More trees, plants, rocks, logs, sand or water	77	31%
4. Make it look nice and clean	63	25%
5. More space to run around and play games	26	10%
6. More shade, paths and seats	102	41%

## Map comments

79 locations were identified on the OurSay interactive map on Council's website. Respondents were able to identify where they play, where they would like to play and where they don't like to play. For each of these responses, they were able to provide a reason. They were also able to provide feedback on how these spaces could be improved.

Based on these responses, the most popular play spaces are Ballam Park, Frankston Foreshore and Overport Park. These spaces were listed as popular due to the fact that there is plenty of space to run around; there are quiet places to play; there are natural features on site; there are lots of fun things to do; it's a great place to meet with family and friends

Spaces people would most like to play in (but currently don't) include: Armstrongs Creek, Crystal Park, Delacombe Park, Foot Reserve, Lawton Reserve, Marwick Street, Overport Park, Riviera

Reserve, Robinsons Park, Wahgunyah Reserve and Woodside Drainage Reserve. Main reasons why people would like to play in these spaces are that the space is close to their home, kinder or school; or there is plenty of space available at the site but no facilities / equipment there at present.

Places respondents said that they don't like include: Austin Reserve, Ballam Park, Baxter Park, Beckenham Reserve, Cavill Reserve, Culnburra Ave, Delecombe Park, Keast Park, McRae Reserve, Park Reserve and Riviera Reserve. Reasons for not liking these spaces included old / boring equipment, not much to do, dogs, lack of toilets and other amenities and safety perceptions.

A wide variety of suggested improvements have been recorded and identified for each play space. The number one suggested improvement is new play equipment.

Results are listed below.

Kananook Creek Near Armstrongs Reserve	Location, close to home			New play equipment
Kareela Reserve				More things to do
Keast Park			It's boring and there are not many things to do there	Uninviting playground. More shade shelters and options for play would be good - like the Carrum beach playground up the road.
Lawton Reserve		There's plenty of space, but nothing there at the moment		
Marwick Street, Carrum Downs		There's plenty of space, but nothing there at the moment (2)		Fun play equipment (2)
McRae Reserve			It's boring and there are not many things to do there	This lonely swing is rarely used- never seen anyone on it! Can the space be used for another purpose? For the Kinder? A community garden?

Riviera Reserve		It's easy to get to and is close to my home / school / kinder	It's boring and there are not many things to do there.	<ul style="list-style-type: none"> <li>Riviera park playground needs more equipment, i.e. monkey bars and more interesting things to climb on. Kids are bored in 5 mins!.</li> <li>This reserve is really lacking in appeal to older kids and the new playground is actually pretty average and boring. The area would massively benefit by putting in skateboard/scooter facilities like what Ballam Park has. Kids of all ages would be able to enjoy the space and older kids from the high school would be attracted there to exercise and put down the phones! It's such a massive, mostly empty space there is definitely the room for decent skating/scootering facilities.</li> </ul>
Robinsons Park		There's plenty of space, but nothing there at the moment

Weatherston Reserve	It's closest to home. It's exciting that a new playground is being built. Disappointing that there's no shade structure that's been built as part of it. This makes it very difficult to use in summer months. Even the pre-existing sheltered eating area has been removed and replaced with one without shade			More shade, paths and seats
William Hovell Reserve	It's a great place to meet and play with friends or my family			New play equipment
Williams Street Frankston Between Cliff Road and Kars Street	There are lots of fun things to do there			New play equipment
Wingham Park	It's a great place to meet and play with friends or my family			Basketball ring with small concrete area around. Ideas about play space
Witternberg Reserve	It's a great place to meet and play with friends or my family			Since this reserve has so much space there is a lot of young Skateboarders ages 13 and under in the Lakewood estate, building a small skatepark,

				more age friendly than the Big Frankston Skatepark would be fantastic!
Woodside Drainage Reserve		It's easy to get to and is close to my home / school / kinder		In the area that was marked they could remove the drainage system
Yamala Park	There are lots of fun things to do there			I like this park because it has swings and climbing ropes. maybe it could have a monkey bars and a basketball area.

## Email feedback

Frankston City Council received 16 emails from members of the public. Comments mostly revolved around the need to upgrade play equipment.

No.	Topic	Details
1	Consultation	Concern that not enough people would see the email and therefore a request to extend the consultation period. Ensure information about the draft is posted in Council newsletter.
2	Ballam Park	Need provision for vehicles to enter the park for events
3	Brunel Avenue / Maple St	Needs an upgrade
4	OurSay	Problems using the system
5	Little Ninja Park	Design provided
6	Eric Reserve	Needs some play equipment
7	Beckenham Place	Needs some play equipment
8	Weatherston Reserve	Resident unhappy with recent upgrade
9	Carrum Woods Drive Park	Resident has requested a straight plastic slide to replace the curved one
10	Pratt Reserve	Install shade sails
11	Skye – from Ballarto Road to Pip St gates	Install a playground, BBQ, rotunda, water feature and nice trees
12	Lyrebird Drive	Upgrade play space
13	Baxter Park	Add play space, skate park and outdoor fitness equipment
14	Playspace upgrades	Don't do any more upgrades to Ballam Park as it's fine. Re-do Frankston Foreshore Play Space
15	Ferndale Reserve	Expand size of half court so people can use it properly and not have to play on bumpy un-level grass
16	General improvements	Install sun shades or established trees. Consult children where possible and use their voice in planning. Be inclusive to abilities. Consult early years advocates.

## Frankston City Council Customer Requests

A database of Frankston City Council Customer Requests from 2018 to mid-May 2020 was forwarded to the project team to review. Requests typically related to graffiti, general parks maintenance (e.g. grass too long, fence needing to be repaired), recreation trails maintenance, fire hazards, vegetation management, dog attacks, drainage maintenance, street lighting, bee /wasp nests, parking enquiries, etc.

The following requests were extrapolated from the database specifically relating to play spaces (note that a number of requests in the database may be related to infrastructure or landscaping within the vicinity of a play space, e.g. seats, vegetation, etc, although as this is not clear, only actions that specifically mention play spaces have been included). The major request was to clean up graffiti on play equipment, repair broken swings / gates and remove fallen branches from play spaces.
